High-speed and high-lifting straightening platform

Equipment enabling high-speed straightening and inspection of small impacts on all types of vehicles at man height.

CITROËN evaluation

Equipment meeting productivity, flexibility, ergonomic and ultra-fast implementation requirements. Legislation requires overload tests for all automotive lifts (decree dated 09/06/1993) after installation and before start up for users and owners of these platforms.

E.C.M.E. Code : V

Description

One SPEED straightening unit comprising :

- One straightening platform with 4 arms and lifting buffers
- One built-in lift with dual cylinders, fitted with a safety valve
- Four supports and underbody clips, quick to install
- One 180° multi-directional pulling square
- One hydraulic unit, 5 tons
- One pulling chain
- One safety cable
- Rack safety
- Documentation provided : user's instructions and spare parts list
- Complies with CE standard

Characteristics

- Length : 2510 mm
- Width : 766 mm
- Height from ground : 100 mm
- Maximum height : 1600 mm

- Lifting capacity : 2,5 T
- Weight : 500 Kg
- Power supply voltage : 240/415 V

Option

- Mono-cross comparative measurement system for SPEED CHECK M 947 : ref. : M 381 223 001

- RESERVED EXCLUSIVELY FOR USE BY THE CITROËN NETWORK - -
