

# BenchRack™ Series

Whatever your current level of productivity, Car-O-Liner's BenchRack Series can help you surpass it. BenchRack is a marvel of function and design, with innovative features that allow you to complete each phase of the collision repair process more quickly, more easily and more profitably.

BenchRack™

## Features:

- A revolutionary tilt feature scissors lift, available on all BenchRack models, makes loading easier when approach space is limited.
- After loading, BenchRack's lightweight drive-on ramps can be easily removed to provide optional access to the vehicle and damage.
- The working height is infinitely variable to suit the technicians height preference up to an industry leading 47-1/4" with a 9,200 lb. weight capacity.
- Fast-anchoring pillar jacks, used to support vehicles during mounting, permit virtually any unibody or full frame car, pickup truck, sport utility or van to be clamped into place quickly and easily.
- Pull anywhere, 360° around the BenchRack, with (2) powerful, hydraulic Draw Aligners that exert up to 10 tons of pulling force.
- Finely milled steel frame with stringent tolerances that result in a smooth, level surface and provide the to-the-millimeter accuracy Car-O-Liner is famous for.
- Diamond-shaped cam locks provide a timesaving fast bolt system for anchoring and pulling components to be attached at any point along the rails.

## 200-BR5500.1 Includes:

- 200-133-050-0017 BR5500 5.5 m Frame with Tilt Lift.
- 200-133-050-0008 Ramp Kit.
- 200-475 Power Unit.
- 200-131-038-5000 Draw Aligners (2).
- 200-205 Ram Adaptors (2).
- 200-701 10-Ton Hydraulic Pump, Hose and Cylinder Set (2).
- 200-133-013-0005 Bench Parts.
- 200-133-050-0005 Pillar Jack Kit.
- 200-930 Double Grab Hook (2).
- 200-931 3/8" x 8' Chain with (1) Grab Hook.

## Options:

[200-BR5000.1](#) Same as BR5500.1 with 5 m Frame.

[200-BR5000.2](#) Same as BR5500.1 with 5 m Frame and Car-O-Mech Mechanical Measuring System with 5 m Bridge.

[200-BR5000.3](#) Same as BR5500.1 with 5 m Frame and Car-O-Tronic Computerized Electronic Measuring System with 5 m Bridge.

[200-BR5500.2](#) Same as BR5500.1 with Car-O-Mech Mechanical Measuring System with 5 m Bridge.

[200-BR5500.3](#) Same as BR5500.1 with Car-O-Tronic Computerized Electronic Measuring System with 5 m Bridge.

[200-BR4200.1](#) Same as BR5500.1 with 4 m frame.

[200-BR4200.2](#) Same as BR5500.1 with 4 m frame and Car-O-Mech Mechanical Measuring System with 4 m bridge.

[200-BR4200.3](#) Same as BR5500.1 with 4 m frame and Car-O-Tronic Computerized Electronic Measuring System with 4m bridge.

[200-BR6300.1](#) BR6300 without Measuring.

[200-BR6300.2](#) BR6300 with Mechanical Measuring.

[200-BR6300.3](#) BR6300 with Vision Measuring.
