

200-138-000-0030

Speed System

Car-O-Liner's Speed System is a versatile lift platform that allows you to make efficient use of space in your shop, increase productivity and maximize capacity. Speed is ideal for a range of different tasks such as sheet metalwork, assembly, disassembly, door adjustments, sanding, masking and other preparations for painting. All this with added capacity of light pulls. Speed is easy to install and easy to use.

200-138-000-0030

Features:

- The Draw Aligner with a capacity of 5 metric tons is infinitely adjustable and self-locking, allowing you to easily set and lock the exact position required. It can be rotated within a large area so you can work more efficiently.
- Setup is fast and easy using Car-O-Liner's easy-on/easy-off attachments.
- Unique bench arms are vertically adjustable, making it easy to install the chassis clamps.
- Vehicles can be easily driven over the platform due to Speed's low profile of only 4".
- The lift frame has adjustable arms and the hydraulic lift is easily adjustable to the working height you prefer. Maximum lifting height is 5' 2" and maximum lift capacity is 5,000 lbs.

Includes:

- 200-138-011-0500 Platform with Lift.
- 200-138-038-5320 Draw Aligner.
- 200-138-011-5300 Bench Arms (4).
- 200-138-140-2303 Power Unit.
- 200-138-010-8300 Chassis Clamps (4).
- 200-725 5-Ton Hydraulic Pump, Hose and Cylinder Set.
- 200-138-011-6110 60 mm Height Extension.
- 200-131-130-1008 Hydraulic Oil.
- 200-131-100-7102 7 mm Chain.
